

Advanced Neonatal and Pediatric Minimal Access Surgery Masterclass

Karl Storz Training and Technology Centre
26-27 April 2024, London

European Paediatric
Surgeons' Association

STORZ
KARL STORZ – ENDOSKOPE

75
Years

Dear Colleagues,

The 2nd edition of the Neonatal and Pediatric Minimal Access Surgery Masterclass offered by the European Paediatric Surgeons' Association (EUPSA) and Karl Storz will update participants the latest trends in pediatric endoscopic surgery.

The Masterclass will include expert lectures along with dedicated time to perform hands—on skill lab sessions for a variety of procedures under the supervision of experts.

The Skills Lab prides itself in offering the hands on experience to develop skills in Minimal Access Surgery on models and tissue within a modern infrastructure. The format of the Skills Lab will involve instructions on exercises and will dedicate time towards the hands-on training and practicing techniques required for advanced minimal access surgical procedures mainly aimed towards the neonatal and pediatric age pathologies.

Karl Storz Training and Technology Centre offers a state-of-the art facility to host the participants for the masterclass and is equipped with the latest technology that will be accessible to the participants.

London is an attractive destination with excellent connectivity to most cities worldwide, and the KARL STORZ Training and Technology Centre is just 20 minutes drive from London Heathrow airport.

We look forward to welcoming you to London to be a part of this Masterclass!

Sincerely,
Amulya Saxena, MD
Course Director

Friday 26th April 2024

- 08:30 Registration
